venkatnathan10@gmail.com

*I am eager to kickstart my career as a full stack developer. I have a solid foundation in front-end and back-end technologies, including proficiency in HTML, CSS, JavaScript and React. Through personal projects, I have gained hands-on experience in creating responsive web interfaces, implementing RESTful APIs, and working with databases. I am skilled in version control and have a basic understanding DevOps practices. As a quick learner with a strong attention to detail, I am committed to continuously expanding my technical skills and staying updated with the latest industry trends.*
